## THE COMMERCE COMMISSION

Some of the Nevada papers are favoring the selection of a California man as a member of the Inter-State Commerce Commission, and mention John F. Swift as a proper party. Nothing could be more fatal to Nevada's hopes than to have California dictate the Pacific Coast policy of the commission. Its members voted against the bill and every San Francisco, Sacramento and Los Angeles merchant is interested in seeing Nevada pay back freights and it would be easy to convince a California commissioner of the justice of keeping up the present practice. If Nevada wants to get the benefits of the new law, let her endeavor to get the President to appoint a Nevada, Nebraska or Colorado man. However, Nevada Democrats have apparently adopted the policy of antagonizing the President in every possible way and it is doubtful if he considers her wishes particularly.

### CHANGED RELATIONS.

The last *Argonaut* has a very interesting article from the pen of Joseph D. Redding, perhaps the most brilliant young man yet brought up on this coast, showing the evolution of the employee. He traces his rapid rise from the feudal serf to absolute equality with the wealthy in all matters concerning citizenship. He suggests one additional step, and that is that the relations between employer and employee be made the subject of regular contracts. He shows how beneficial it would if every employer was compelled to recognize the rights of his workmen and vice versa. Either would have to give notice of the abrogation of the contract, and instead of being master and servant, they would be equals. Such an arrangement would make each feel his responsibility to the other, and protect both, as well as the public.

### EDITORIAL NOTES.

There was some talk of a bill changing the salaries in Washoe county, so as to make the county pay for its share of the work, and outsiders pay theirs to the worker, but it has been dropped.

The President will give a reception this evening in honor of Congress and the Judiciary.

[FROM DISPATCHES TO THE GAZETTE]

#### Congressional Proceedings.

WASHINGTON, January 27.  
 The House Committee on Agriculture yesterday decided to report adversely, the bill introduced by Delegate Carey of Wyoming, regarding pleuro pneumonia and other diseases of cattle. This measure was drafted by the National Cattle Growers' Association at their recent session in Chicago, and provides for an appropriation of \$1,000,000 for carrying out the provisions of the bill. The action of the Committee was based upon the pendency of Mr. Hatch's pleuro pneumonia bill.

The committee laid upon the table, Representative Parker's bill, which proposed to amend the oleomargarine act by increasing the tax from two to six cents per pound, and by striking out the provision for a forfeiture of oleomargarine found to contain ingredients deleterious to the public health. So far as regards merely the number of appropriation bills passed at this period of the short session, it is considered that the work of this Congress is below the average for the past 10 years.

The Tariff and Revenue bill prepared by Mr. Randall and his friends, has been printed, and the date of its presentation in the House will be fixed at a meeting to be held this evening.

#### Putting up Wire Fencing.

CHICAGO, January 26.  
 At a meeting of the barb-wire pool here to-day a general advance of five to ten per cent. in price were adopted, to take place immediately. Fifty licenses of the Washburn-Moen Company, composing the pool, were all represented, and action on the advance was unanimous. The pool is incorporated under the name of the United Wire Company.  
 After the meeting Vice President Marsh said: "The members of the pool have for the past four years have been more or less unsuccessfully trying to regulate the production, but now have the matter where they want it." He said the pool is about to cooperate with the Smooth Wire Association toward curtailing the output of smooth and barb wire correspondingly, and that over production would be avoided.

#### Sugar in Hers.

ALEXANDRIA, VI., January 26.  
 At the annual meeting of the Women's Christian Temperance Union of this State, in session here to-day, the following resolution was adopted: "That our heartfelt thanks are hereby tendered to Mrs. Frances F. Cleveland for the position she has taken in chief social circles of the capital as a total abstainer from all intoxicating drinks, and we pray God's blessing on her young life and on her home, believing that history will applaud her action, as all sincere minds must even now approve her motives."

#### Instructed to Investigate.

WASHINGTON, January 27.  
 The Senate yesterday proceeded to the consideration of the resolution reported Tuesday by Hoar, instructing the committee on Privileges and Elections to investigate the allegations made by three people of Washington county, Texas as to their being driven from their homes, compelled to abandon their property and deprived of the right of suffrage in that county. After a long discussion the resolution was adopted by a vote of 31 to 26.

#### Lightning Strikers.

NEWARK, N. J., January 27.  
 Between 300 and 400 hands employed in the Edison electric light works at Harrison, went on a strike yesterday. The cause of the trouble was the discharge of one of the boys, who, it was discovered, had broken about 250 of the glass lamps stored in the building.

#### A Constitutional Argument.

WASHINGTON, January 27.  
 Hon. Samuel Shellabarger, in behalf of the Cattle Growers' Association yesterday appeared before the Senate Committee on Agriculture, and submitted a constitutional argument in support of the Miller bill, to extirpate pleuro-pneumonia.

#### The Great Strike.

NEW YORK, January 27.  
 Twenty thousand men are now on a strike among the coal shovellers, long-

shoremen, freight handlers and men employed on the river front in almost every capacity, and the number is augmented to close on to 40,000 by strikers on the Brooklyn and Jersey shores. In consequence it is almost impossible for any of the steamers for Europe or coast wise to leave port. The order went forth yesterday from headquarters of the Longshoremen's Union, which was backed by the Knights of Labor Assembly No. 49, and this morning the men turned out. The Old Dominion Line has a few men working and at the headquarters of the strikers it was reported at noon that a number of the green hands who were taken on Monday had joined the strikers. The men were considerably elated at the favorable reports that the walking delegates, or beach-walkers, were bringing. One delegate from North River stated that not a single steamer had been able to take in a regular supply of coal and in consequence would not be able to sail. The next move will be to get the engineers on tug boats to refuse to burn the coal or to tow it, and other labor organizations who are dependent on the coal supply will be compelled to quit work. Ferryboats are seriously inconvenienced by lack of coal, and one line had grocery and other wagons bringing coal from small yards, but when they came around so often the dealers refused to sell.

#### No Choice.

AUSTIN, TEXAS, January 27.  
 The Legislature to-day resumed balloting for Senator. The first ballot to-day and the sixth of the contest resulted: Maxey, 51; Regan, 50; Ireland, 35. This is a gain of seven votes for Maxey since yesterday's adjournment. The seventh ballot stood: Regan, 52; Maxey, 50; Ireland, 34. The eighth ballot stood: Regan, 54; Maxey, 48; Ireland, 34. The ninth ballot resulted: Regan, 53; Maxey, 48; Ireland, 35.

The excitement was very great and a break was momentarily expected the feeling being general among Senators and Representatives that the struggle would end to-day. The tenth ballot however failed to disclose the expected break and resulted as follows: Regan, 54; Maxey, 46; Ireland, 34.

#### A Merciless Wretch.

EL PASO, January 27.  
 Last night as William Dalton of Tayah was coming across the bridge from the Mexican side, he was accosted by a Mexican guard who asked him where he was going, and added that he could not cross the bridge. This was said in Spanish. Dalton, not understanding, and thinking he was disobeying no law, started across and was shot by the guard in the back, the ball penetrating the abdomen with fatal effect. Dalton was carried into a Mexican dungeon at Paso Del Norte, where he now lies on the bare floor and soaked with blood. No blanket covers him and no pillow is under his head.

#### A Serious Charge.

MILWAUKEE, January 27.  
 Postmaster Francis E. Sharp of Oconto, Wis., was landed in jail here last night. He is charged with having rifled a large number of registered letters, securing a sum variously estimated at from \$500 to \$1,000.

#### Mutual Fire Insurance.

PITTSBURG, January 27.  
 A meeting to arrange a mutual fire-insurance plan for the National Association of Wholesale and Retail Druggists, is in session here.

### FOREIGN DISPATCHES

#### Unavailing Cries of Distress.

HALIFAX, January 27.  
 At about 9:30 o'clock last Tuesday night at Upper Prospect, cries of distress were heard off the shore, but as the sign of the distressed vessel could not be discovered through the darkness and the boisterous sea, rendered any attempt at rescue an impossibility. The cries continued for a time, being heard quite distinctly, then they became fainter and fainter and finally ceased. Yesterday morning a small quantity of wreckage was washed ashore, consisting of a piece of main mast, a section of a vessel's bulwarks and a number of barrel staves. A liquor cask which drifted ashore bears the name "P. Doyle," that of a Halifax merchant, but Doyle states that the wrecked vessel cannot be one of his. No portion of the wreck is visible about the water, and the sea was so rough all day that no boat could be launched. It is considered certain that all on board the vessel were lost. There were probably six men aboard of her, and perhaps eight.

#### Parliament Open.

LONDON, January 27.  
 As early as 8 o'clock this morning members began to arrive in the House of Commons, so as to secure good seats. The scenes at the opening of Parliament were duller than those which usually attend this event. The crowds about the buildings showed little if any enthusiasm, and members were evidently uncertain as regards the future.

Lord Randolph Churchill when he first entered tried to take the coveted seat below the gangway, which he

formerly occupied. He found, though that he had been forestalled by the Right Hon. Henry Chaplin, whose hat was on the seat. Lord Randolph lifted the hat, examined it critically, read Chaplin's card for a full minute, then smiled and took a back seat. It is notorious that a feud exists between Lord Randolph and Chaplin. The speech from the throne excited little interest. The weather is damp and foggy.

Gladstone reached the House at 4:30 o'clock. He was greeted with great enthusiasm by the people on the way from his residence. Parnell entered the House and reached his seat unobserved.

The Parnellites after the reading of the Queen's speech, held a conference and discussed the advisability of offering an amendment of the address in reply to it. They adjourned without coming to a decision.

W. H. Smith, First Lord of the Treasury, gave notice in the Commons of the Government's intention to introduce a measure for the reform of the rules of parliamentary procedure, and said he would ask facilities for giving precedence to the consideration of the measures, so that it may be at once discussed from day to day.

#### German Politics.

BERLIN, January 27.  
 The electoral campaign proceeds quietly. The Nationals of Essen and Herne have invited Fredric Krupp, son of the iron founder, to be their candidate. All the Alsatian members of the last Reichstag will stand again. They are preparing a joint manifesto. The Nationals have nominated Professor Gneist for Landshut, which seat was held by Cons in the last Reichstag. The inspired journals state that Prince Bismarck will publish a document from the Pope, favoring the government in the present contest.

#### Civil Rights in Hungary.

PESTH, January 27.  
 During the debate on the budget in the lower house of the Hungarian Diet yesterday, Premier Von Tisza declared amid acclamations, that no one wished for war with Russia. Referring to a remark by an anti-Semitic deputy, the Premier sustained, in emphatic language, the principle that a Jew and Christian are entitled to equal rights.

#### A Heavy Failure.

LONDON, January 25.  
 A dispatch to the *Standard* says that notary Gandary of Metz, has failed for 4,000,000 marks, and the district is so excited that Gandary, fearing violence has applied for police protection.

#### How to Preserve Fence Posts.

An eastern exchange says: To char fence posts simply prevents the outside from decaying, but does not in any manner prevent decay inside the charred portion. Tar or any paint does not prevent decay, the post being in the ground, for the moisture is constantly saturating the substance below. But if we saturate the whole substance of the wood with some non-drying oil, the posts will be preserved until the oil is carried away by natural means, requiring many years. The best oil to use is crude petroleum, because it is cheap and easily applied. The proper means is a tank deep enough to hold the posts in an upright position until saturated one foot higher than they are to be set in the ground. If not, successive coats may be applied with a brush at intervals of three days, until the wood will take up no more. Three good coats will generally suffice, and such posts will last fully three times as long as they will when set in their natural state. But they must be thoroughly dry before painting.

#### Painful Accident.

Dick Roberts' little girl fell down the cellar stairs and broke both bones of her leg at Milford, yesterday.

#### The Real Thing.

Six bars of bullion weighing 1200 ounces were taken to the bank today by the Reno Reduction Works.

H. A. Winton is still in the field with as fine a stock of the best shoes as was ever opened in this or any other market. He is actually selling as low as any San Francisco retail house, and is deserving of liberal patronage.

Greatly Excited.

Not a few of the citizens of Reno have recently become greatly excited over the astounding facts, that several of their friends who had been pronounced by their physicians as incurable and beyond all hope—suffering with that dreaded monster Consumption—have been completely cured by Dr. King's New Discovery for Consumption, the only remedy that does positively cure all throat and lung diseases, coughs, colds, asthma and bronchitis. Trial bottle free at S. J. Hodgkinson & Co.'s drug store; large bottle, \$1.

Shot in the Back.

The Virginia Chronicle says: W. W. Faber, a raucous residing three miles from Latrobe, El Dorado Co., Cal., was found dead in the road two miles from that place January 24, having been shot through the back by some unknown party. He was last seen alive by a neighbor through whose ranch he passed the day before, and his body was discovered by the same neighbor about half a mile distant. The horse and buggy were entangled in the brush near by. Faber had got out of the buggy to open a gate, and it was evidently shot by a concealed enemy while in the act.

Deceased formerly resided on the Comstock and followed the occupation of a miner. He left here about 1876 and was charged with having taken property with him claimed by other people. His reputation here was of an unsavory character.

The Agonies of Lumbago.

EAST RIVER NATIONAL BANK. NEW YORK, March 10 1886. It gives me great pleasure to add my testimony in favor of your very valuable plasters. Last October I had a very severe attack of lumbago and suffered untold agony; could not turn in bed or get in any position without assistance, and with pains almost unbearable; the folks suggested Allcock's Porous Plasters. As soon as possible I had one applied to the small of my back, and to my great surprise I experienced almost instant relief; I continued wearing it until entirely cured, and am happy to say that I have not had the slightest symptoms of lumbago since. They are a wonderful and valuable plaster for lumbago, and I take much pleasure in recommending them.

W. S. PHILLIPS.

PERSONALS

N. J. Foxwell of Verdi is in town.

Hon. W. C. Grimes of Churchill county, arrived in town last night.

General C. C. Powning and wife returned from the Bay this morning.

County Assessor Kersey of Carson went below on last evening's express.

Lon Hamilton arrived last evening from the Comstock on his way to California.

Senator Williams of Ormsby county returned from California on this morning's overland.

Archibie Borland and H. M. Levy arrived from the Comstock last night on their way below.

E. C. Hardy and Mr. Jacks, Elko county stockmen, arrived here last evening and went to Carson this morning.

Senator Hardesty came down from Carson last evening and left for Elko county on this morning's overland.

J. W. E. Townsend, late of the Carson Index, has gone to Hawthorne in which locality he is said to have large mining interests.

Mrs. D. A. Bender went to San Francisco Tuesday evening, having been summoned there by the serious illness of her mother.

Hon. George Ernst of Nye county, and Dr. Rae of the Carson river freighting scheme, returned this morning from below.

W. W. Byrom of Lyon county is here with a few car-loads of ore from the Hudley mine to be worked by Howell & Carey.

The most agonizing neuralgic pains go down before the marvelous power of St. Jacobs Oil.

A Helping Hand.

Reno people are expressing a great deal of satisfaction at the course the Central Pacific Company is pursuing towards the Reno Reduction Works. They are bringing ore here from Auburn and New Castle for less than \$40 a car, and have given as low a rate from Redding and Red Bluff as to San Francisco. It is a long while since the railroad and this county have been found working in harmony, and if the mischief-making politicians let them alone they will get along first-rate.

Wonderful Cures.

W. D. Hoyt & Co., wholesale and retail druggists of Reno, Ga., say: We have been selling Dr. King's New Discovery, a cure for rheumatism, for many years, and have never handled remedies that sell as well, or give such universal satisfaction. There have been many wonderful cures effected by this medicine in this city. Several cases of pronounced consumption have been entirely cured by use of a few bottles of Dr. King's New Discovery, taken in connection with Electric Bitters. We guarantee them always. Sold by S. J. Hodgkinson & Co.

Not a Mistake.

The Silver State denies the statement made in the GAZETTE, that a good many old cows are dying in Central Nevada, and suggests that the informants were not reliable. The GAZETTE interviewed men who ride the range and the Silver State need not go far from home to find them right. The fact is, more or less old cows die every winter, but this season the mortality is greater than usual.

Nevada's Senators.

The Inyo, Cal., Independent says: All over the country newspapers declare that by the election of Mr. Stewart to the United States Senate, Nevada will have the ablest delegation in that body of any State in the Union. Several other States have each one able Senator, but no other State has such a pair of Senators as John P. Jones and William M. Stewart.

A Genial Restorative.

Hostile's Stomach Bitters are emphatically a genial restorative. The changes which this great botanical remedy produces in the disordered organizations are always agreeable though surely progressive, never abrupt and violent. On this account it is admirably adapted to persons of delicate constitution and weak nerves, to whom the powerful mineral drugs are positively injurious. That it imitates those processes which result in the re-establishment of healthful vigor is conspicuously shown in cases where it is taken to overcome that fruitful cause of debility, indigestion, coupled as it usually is, with biliousness and constipation. Tardiness of action, regular evacuation and abundant secretion are results which promptly and invariably attend its systematic use. It is, besides, the best protective against malaria, and a first-rate diuretic.

Blown Away.

The Carson Tribune says: The new building erected by Mr. Clemens (Yank), near the Tallac House, Lake Tahoe, was blown over during the heavy gale of Friday last, and is now scattered all over the land. Poor old Yank is having hard luck in the latter end of his days.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines prescribed. Hamburg Figs were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all drug-sts. J. J. Mack & Co., proprietors.

SHILOH'S CATARRH REMEDY—a positive cure for Catarrh, Diphtheria, and Canker Mouth. Sold by Osburn & Shoemaker.

Ayer's Sarsaparilla, being highly concentrated, requires a smaller dose, and is more effective, dose for dose, than any other blood medicine. It is the cheapest because the best. Quality and quantity should be considered.

Washoe Valley Miners. A track is being laid from the tunnel down to Mr. Stevenson's mill and ore in the new discovery will be taken out and worked.

The Smith brothers are prospecting their claim with good encouragement.

Jackson and Porter have done a good deal of work and are still prospecting.

The rich body of ore found a few years ago in the Harris mine has been worked out and the work of prospecting has not opened in another. A shaft will be sunk 300 feet and old and new works connected. The ledge continues strong and well defined and about a foot wide, but instead of being rich gold it has turned into rebellious ore worth \$60 and \$70 a ton. He will get some out to be worked at Reno.

Mr. Harris has introduced an ancient Mexican method of transporting water. He has to go three miles for it, and he uses an immense canvas vessel which he throws over his horse's back and carries 35 or 40 gallons at a time. It is three or four feet long and hangs down on each side so as to nearly cover the horse. An opening at the top admits the water and a strap in front and one behind keeps it in place although it is so heavy that nothing could get it off even when not fastened. The water is drawn off through a hole in the lower corner on each side, stopped by a cow's horn. To open it the horn is pushed back and when allowed to drop the water behind pushes it tightly into place and stops the hole entirely.

Free Trade.

The reduction of internal revenue and the taking off of revenue stamps from Proprietary Medicines, no doubt has largely benefited the consumers, as well as relieving the burden of home manufacturers. Especially is this the case with "Green's August Flower" and "Boschee's German Syrup," as the reduction of 30 cents per dozen, has been added to increase the size of the bottles containing these remedies, thereby giving one-fifth more medicine in the 50-cent size. The "August Flower" for dyspepsia and liver complaint, and the "German Syrup" for cough and lung troubles, have perhaps, the largest sale of any medicines in this world. The advantage of increased size of the bottles will be greatly appreciated by the sick and afflicted, in every town and village in civilized countries. Sample bottles for 10 cents remain the same size. nov30yl

Real Estate Transactions.

A. Benson is reported to have purchased the residence of Mrs. Thoms, next to the Golden Eagle hotel, and Hon. C. M. Fasset is said to have bought the Whitehead house in the Western Addition, where he purposes making a home. It is reported, also, that the Schooling residence has been sold to S. Jamison.

Sudden Death.

Dr. Flint's Heart Remedy will prolong life by preventing those sudden deaths from heart disease which bring untold grief to families, often plunging them into poverty because of the untimely death of the bread-winner. At druggists, \$1.00. Descriptive treatise with each bottle; or address J. J. Mack & Co., S. F.

They Stay Away.

"Aurelia, have you heard about those Southern girls who formed a club to boycott the young men who came to visit them and never took them to the theaters?" Aurelia—"yes; I know all about it. We girls have the same kind of a club." "How does it work?" "Doesn't work at all, and we feel so badly over it." "The young men persist in calling?" "No, they stay away—the wretches!"

Ayer's Pills cure constipation, improve the appetite, promote digestion, restore healthy action and regulate every function. They are pleasant to take, gentle in their operation, yet thorough, searching and powerful in subduing disease.

ARE YOU MADE MISERABLE by Indigestion, Constipation, Bloating, Loss of Appetite, Yellow Skin? Shiloh's Vitalizer is a positive cure. Sold by Osburn & Shoemaker.

Ice Cream Poisoning.

A bold, bad boy of Illinois thrust a couple of plugs of tobacco into a big jug of whisky he found in a horse shed during a church supper. And the next day the local physician reported 17 cases of ice cream poisoning—all men—and the poor women who made the ice cream cried their innocent eyes out about it.

## A Safeguard.

The fatal rapidity with which slight colds and coughs frequently develop into the gravest maladies of the throat and lungs, is a consideration which should compel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetser, of the Maine Medical School, Brunswick, Me., says:—

"Medical science has produced no other anodyne expectorant so good as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says:—

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation of so great value as AYER'S CHERRY PECTORAL, for treatment of diseases of the throat and lungs. It not only breaks up colds and cures severe coughs, but is more effective than anything else in relieving even the most serious bronchial and pulmonary affections."

## AYER'S Cherry Pectoral

Is not a new claimant for popular confidence, but a medicine which is to-day saving the lives of the third generation who have come into being since it was first offered to the public.

There is not a household in which this invaluable remedy has once been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any throat or lung disease susceptible of cure, who has not been made well by it.

AYER'S CHERRY PECTORAL has, in numberless instances, cured obstinate cases of chronic Bronchitis, Laryngitis, and even acute Pneumonia, and has saved many patients in the earlier stages of Pulmonary Consumption. It is a medicine that only requires to be taken in small doses, is pleasant to the taste, and is needed in every house where there are children, as there is nothing so good as AYER'S CHERRY PECTORAL for treatment of Croup and Whooping Cough.

These are all plain facts, which can be verified by anybody, and should be remembered by everybody.

## "THE IDEAL MAGAZINE!"

FOR YOUNG PEOPLE IS WHAT THE papers call St. Nicholas. Do you know about it? Is it, as they say, and pure and helpful? If there are any boys or girls in your house will you not try a number, or try it for a year and see if it isn't just the element you need in the household? The "London Times" has said, "We have nothing like it on this side." Here are some leading features of

## ST. NICHOLAS

FOR 1888-87.

Stories by Louisa M. Alcott and Frank R. Stockton—several by each author. A Short Serial Story by Mrs. Burnett, whose charming "Little Lord Fauntleroy" has been a great feature in the past year of St. Nicholas.

War Stories for Boys and Girls. General Bude, chief of staff, biographer and confidential friend of General Grant, and one of the ablest and most popular of living military writers, will contribute a number of papers, describing in clear and vivid style some of the leading battles of the civil war. They will be panoramic descriptions of single contests or short campaigns, presenting a sort of literary picture gallery of the heroic and heroic test in which the parents of many a boy and girl of to-day took part.

The Serial Stories include "Juan and Juana," an admirably written story of Mexican life, by Frances Courtenay Baylor, author of "On Both Sides," also, "Jenny's Boarding House," by James Oles, a story of life in a great city.

Short Articles, instructive and entertaining, will abound. Among these are: "How a great Panorama is Made," by Devens, with profuse illustrations; "Winning a Commission (Naval Academy)," and "Recollections of the Naval Academy," by Boring for Oil; and "Among the Gas Wells," with a number of striking pictures. "Child Sketches from George Eliot," by Julia Magruder; "Victor Hugo's Tales to his grandchildren," recounted by Brander Matthews; "Historic Girls," by E. S. Brooks. Also interesting contributions from Nora Perry, Harriet Prescott Spofford, Joaquin Miller, H. E. Boyesen, Washington Gladden, Alice Wellington J. T. Trobridge, Lieutenant Fredrick Schwatka, Noah Brooks, Grace Denio Litchfield, Rose Hawthorne Lathrop, Mrs. S. M. B. Platt, Mary Mapes Dodge, and many others, etc., etc.

The subscription price to St. Nicholas is \$1 a year; 25 cents a number. Subscriptions are received by book-sellers and newsmen everywhere, or by the publishers. New volume begins with the November number. Send for our beautiful illustrated catalogue (free) containing full prospectus, etc., etc.

## Harper's Young People.

AN ILLUSTRATED WEEKLY.

HARPER'S YOUNG PEOPLE has been called "the model of what a periodical for young readers ought to be," and the justice of this commendation is amply sustained by the large circulation it has attained both at home and in Great Britain. This success has been reached by methods that must commend themselves to the parents, no less than the tastes of the children—namely, by an earnest and well sustained effort to provide the best and most attractive reading for young people at a low price. The illustrations are copious and of a conspicuously high standard of excellence.

An epitome of everything that is attractive and desirable in juvenile literature.—Boston Courier.

A weekly feast of good things to the boys and girls in every family which it visits.—Brooklyn Union.

## Some Sensible Person Reads a Lecture on the Lost Sunsets.

It is a noteworthy illustration of what can scarcely be regarded otherwise than a neglect on the part of our artists, that scarcely an attempt appeared on the walls of the last two years' exhibitions at the Royal Academy to record the strangely magnificent sunrises and sunsets which formed the theme of so much admiration and speculation during the autumn of 1883, recalling Cowper's lines—

"Flies from beneath, and meteors from above,  
Portentous, unexampled, unexplained,  
Have kindled beacons in the skies."

Yet the effects were as splendid as they were novel. One observer tells how, in London, on a certain morning, "the somber haze of the east gradually brightened as the sun arose, until the whole firmament was ablaze with roseate light, which by 6:30 had changed into a broad belt of orange and scarlet, surmounted by a glorious mass of opalescence. The river seemed as if spanned with an ethereal bridge of ruby and gold. Indeed, such a blaze overspread the city that the cry of fire was raised; and the bridges were lined by spectators who halted for a moment to feast their eyes on the outline of the Tower standing out against a background of luminous red, and the lofty dome of St. Paul's seen with a clearness which must have reminded some of the on-lookers of the front view of that still more famous 'dome which a thought of Michael Angelo's hung in the golden air of Rome,' a scene surely worthy of the artist's pencil! but now, it is to be feared, passed forever away.

Many attempts, it will be remembered, were made to explain these remarkably beautiful phenomena, amongst which the following seems to be amongst the most satisfactory: "The magnificence of the recent displays was doubtless due to the thin, invisible mist in the air, or perhaps a stratum of ice particles, admitting of the rays of the departing and rosy sun being reflected from it, or to the circumstances of the larger-sized aqueous constituents of the clouds enabling the undulations of light to reflect all their color constituents—the coarser oscillations of the red and yellow, as well as the exceedingly delicate vibrations of the blue. As the sun sinks towards the horizon, and the thickness of atmosphere through which the rays of light have to pass becomes greater, more air particles necessarily lie in their path, and, as Dr. Mann has shown, more and more of the less refrangible rays are arrested with the augmenting length of the track—first the blue, then the green, afterwards the yellow, and finally the orange and red. Consequently, as that eminent meteorologist points out, although the light reflected from the sky at noon comprises only the weak azure vibrations, that which is reflected from the vapors and clouds after sunset consists chiefly of the crimson rays which have made their way up through the long air track, and which are thence thrown back to the eye." [From the Art Journal for November.

### Summons.

IN THE DISTRICT COURT OF THE

Seventh Judicial District of the State of Nevada, in and for the county of Washoe.

The State of Nevada sends to Robert Heene greeting: You are required to appear in an action commenced against you as defendant, by the Central Pacific Railroad Company, as plaintiff, in the District Court of the Seventh Judicial District, in and for the county of Washoe, State of Nevada, and answer the complaint therein within ten days after the service on you of this summons—exclusive of the day of service—if served on said county, or twenty days if served on said county, but within said district, and in all other cases forty days, or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover judgment against you, Robert Heene, defendant, for the sum of four hundred and fifty and 50/100 (\$450.00) dollars, and costs, and answer the complaint, containing 86 acres, said contract entered into Sept. 13, 1880; that you be required to pay said sum within 30 days from rendition of judgment, and in case of failure to pay within said 30 days, that the said contract be declared null and void, and that you, defendant, and all persons holding under said contract be forever barred and foreclosed of all right to conveyance thereunder, and that the plaintiff be let into the possession of said premises and for costs herein, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court, in said County. And you are further notified that if you fail to answer and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I, T. V. [seal] Julien, have hereunto set my hand and affixed the seal of said Court, this 8th day of November, A. D. 1887.

Clerk of the District Court of the Seventh Judicial District, Nevada, in and for Washoe County.

Jos. D. Redding, Attorney for plaintiff.
